DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 15-20 and amended claims 5-14 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, drawn to forming a lead, classified in class 29, subclass 825.
 - II. Claims 5-8 and 15, drawn to assembling terminals to a base, classified in class 29, subclass 831.
 - III. Claims 9-14, drawn to assembling terminal to conductor, classified in class 29, subclass 855.
 - IV. Claims 16-20, drawn to manufacturing contact, classified in class 29, subclass 883.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions of Group I and of Groups II-IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case Group I does not require unitizing step of Groups II-III as well as Group I does not require removing the second material in Group IV.
4. Inventions of Group II and of Groups III-IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case Groups III-IV does not require a third insulative material of Group II.

Art Unit: 3729

5. Inventions of Group III and of Group IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case Group IV does not require unitizing step of Group III.

6. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 5-20 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

7. This application is in condition for allowance except for the following formal matters:

8. This application contains claims 5-20 drawn to an invention that is independent or distinct from the invention originally claimed. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

9. Claims 1-4 are allowed

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
